ABOUT ME

An IT in Business Computing graduate and CompTIA Data+ certified professional passionate about leveraging analytics to solve real-world business challenges. Proven track record as a Data Analyst Intern at a Sime Darby subsidiary, specializing in end-to-end ETL processes, SQL database management, and developing high-impact Power BI dashboards for corporate stakeholders. Highly motivated to apply advanced data analytics to uncover strategic insights, analyze market momentum, and drive operational efficiency.

WORK EXPERIENCE

DATA ANALYTICS INTERN | JAN 2026 - JUNE 2026

INOKOM CORPORATION Sdn. Bhd. (Sime Subsidiary) | Kulim, Kedah

- Led two end-to-end dashboard development projects that automated reporting workflows, liaising directly with the Supply Chain Management Division and the BMW Kulim Plant to align business requirements with data solutions.
- Developed interactive Power BI dashboards supporting operational, logistics, and quality assurance functions, significantly improving KPI visibility and reporting efficiency for department heads.
- Conducted complex ETL processes and data cleansing on large-scale datasets across Microsoft SQL Server environments, ensuring complete data accuracy and structural consistency.
- Successfully presented finalized dashboards to top management for strategic sign-off prior to official production Go-Live deployment.
- Facilitated cross-functional stakeholder meetings to gather requirements, translate operational needs into technical specifications, and ensure continuous alignment.
- Post Go-Live support to ensure end-user can utilize developed dashboard efficiently.

PART-TIME RETAIL ASSOCIATE | JAN 2024 - DEC 2025

Neonshine Sdn. Bhd (Adidas) | Cheras, Kuala Lumpur

- Managed inventory records and stock movement using Microsoft systems and Excel.
- Participated in full-store stock takes, identifying discrepancies and supporting shrinkage control initiatives.
- Developed strong communication and stakeholder engagement skills through daily customer and team interactions.
- Contributed to team collaboration and operational efficiency in a fast-paced retail environment.

SOFTWARE PROGRAMMER INTERN | JULY 2023 - NOV 2023

Majlis Agama Islam Negeri Sembilan (IT Department) | Seremban, Negeri Sembilan

- Designed and developed Sistem Pinjaman Aset Alih, a web-based system to automate IT asset reservation processes using Laravel 10.
- Provided technical support, troubleshooting, and user training to improve system adoption and usability.
- Assisted in maintaining computer systems and internal network infrastructure.

EDUCATION / CERTIFICATION

ADVANCED DATA ANALYTICS (GOOGLE CERTIFICATE) | APR 2026 - PRESENT

FOUNDATION OF DATA SCIENCE (1 OF 7)

GO BEYOND THE NUMBERS: TRANSLATE DATA INTO INSIGHTS (2 OF 7)

THE POWER OF STATISTICS (3 OF 7)

COMPTIA DATA+ | DEC 2025

YAYASAN PENERAJU PENDIDIKAN BUMIPUTERA

BACHELOR OF INFORMATION TECHNOLOGY (HONS.) IN BUSINESS COMPUTING | NOV 2023 - JUNE 2026

UNIVERSITI POLY-TECH MALAYSIA

Majors: Data Analytics, Business Analytics and Project Management

DIPLOMA IN COMPUTER SCIENCE | JULY 2021 - NOV 2023

UNIVERSITI POLY-TECH MALAYSIA

Majors: Computing Fundamental and Programming

SIJIL PELAJARAN MALAYSIA | 2016 - 2020

MAKTAB RENDAH SAINS MARA KUALA KLANG

PROJECTS

INOKOM CORPORATION SDN. BHD. (SIME DARBY SUBSIDIARY)

- **Warehouse Management Dashboard:** Led the development of a real-time tracking solution to display container availability, successfully automating income reporting workflows and reducing manual departmental effort.
- **BKP Q-Gate & Process Audit Dashboards:** Gathered core business requirements to visualize production line quality data and internal audit metrics, enhancing QA monitoring and visibility.
- **BKP Self-Announcement Integration:** Optimized existing QA architecture by embedding a streamlined data section to fully automate recurring reporting for the BKP QA department.

MAJLIS AGAMA ISLAM NEGERI SEMBILAN

- **Sistem Pinjaman Aset Alih (Laravel 10):** Designed and engineered a web-based asset reservation platform to completely eliminate manual documentation, improving internal tracking efficiency.

UNIVERSITI POLY-TECH MALAYSIA

- **Asset Management System FYP:** Developed an Asset Management System integrated with a Reservation System. To improve workflow efficiency and improve system usability with the updated version. The system includes with an Inventory System integrates with a Reservation System.

ACHIEVEMENT AND INVOLVEMENT

INOKOM CORPORATION SDN. BHD. (SIME DARBY SUBSIDIARY)

- Joined the INOKOM Committee and involve in organizing Fun Walk in the INOKOM plant.
- Participated in the INOKOM Fun Walk 2026.

NEONSHINE SDN. BHD

- **Stock Take and Inventory Accuracy:** Involved in the full-store stock takes by checking and verifying all merchandise, identifying losses, discrepancies, and excess stock, contributing to improved store accuracy and shrinkage control.
- **Inventory Management:** Managed stock receiving, stock-out processes, and credit memos, ensuring proper documentation and smooth flow of goods in the stockroom.
- **Operational Reliability:** Assisted on the sales floor. Adapted to multiple roles (stock, storekeeping, sales) based on store needs, showing flexibility and dependability during daily operations.

UNIVERSITI POLY-TECH MALAYSIA

- Dean's List (Multiple Semesters)
- Active participation in academia-industry collaboration programmes

MRSM KUALA KLawang

- Active member of the school rugby club known as Bison.
